

# Trail Map

**18 named trails**, 8.6 km in all, 71 m from the yard down to the river.  
Mowed twice a year. Two loops. Longest is Eagle Point Trail at 1.3 km.

Numbers on the map match the table, and the last column lists which numbered trails each one joins. The yard is at the top of the hill and the river is at the bottom, so save some legs for the climb back.

Lengths are measured from the GPS track, not surveyed. Minutes assume an easy pace of about 4 km/h on the flat; allow more for the climb. Trails are mowed grass through river hills: wear closed shoes, carry water, and watch for wildlife. Please stay on the marked trails.
